Tom's brilliant use of humor keeps your attention and has you laughing and learning at the same time. This is a must read for any parent wishing to better develop their parenting skills.

This book will make you laugh out loud if you truly know someone with ADHD. The truth is relayed with a sense of humor and anyone who has to deal with ADHD daily, needs a little humor! One of the most interesting/learning subjects covered was "How learning can be enhanced with the senses stimulated". I actually thought the author knew my son! I shared this book with family members. I want to send it to my son's teacher - but I do not have my nerve up yet! I hope the teacher has a sense of humor and truly knows my child, because this book is about him and thousands who suffer with ADHD!

This is by far one of the best resources for parents of children with ADD/ADHD. Tom Quinn has such a great understanding of these puzzling kids and explains much of. Their behavior in easy to understand ways. I especially like the "wannabe" section. ALL those distractible are NOT ADD; good to know.

This book has been my bible...I highly recommend this to anyone with a child with ADHD.....Tom

Quinn really knows his stuff!
