# The Timechart History Of The World: Over 6000 Years Of World History Unfolded

## Synopsis

The timechart is based on an original Victorian wall chart, published in 1890. It follows the entire history of mankind and shows what was happening concurrently around the world with illustrations of many major events, discoveries and prominent people. While maintaining the Victorian design, the chart has been updated and extended so that the time stream continues into the twenty first century, right up to the present day. There are maps and charts, and on the reverse of the timechart there is a vast store of extra information on the different nations' rulers and dynasties.

## Book Information

Hardcover: 32 pages

Publisher: Chartwell Books; 5 edition (September 8, 2014)

Language: English

ISBN-10: 0785831924

ISBN-13: 978-0785831921

Product Dimensions: 0.2 x 12.5 x 17.8 inches

Shipping Weight: 2.7 pounds (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars [See all reviews](#) (29 customer reviews)

## Customer Reviews

I really like the way this timeline places Biblical history alongside secular history. The illustrations are in vivid color and visual learners can "visualize" the timeline and place events at the proper historical time. The pages fold out so you can glimpse long spans of time without turning the page. This timeline accepts a Biblical chronology and begins with creation.

I had one of these as a teenager and bought one for my nephew. It is basically the same historical information (history does not change too much anyway) but with the addition of extra sheets noted in the description. Perfect for children to connect different historical events while spurring interest in their discovery of other historical events. Highly recommend.

This time chart is AMAZING!!! It comes in a large book but folds up easily into the book. The history is fascinating and my kids love to pull it out and see how history has flowed. As a homeschool family

this is a must have item!

Has very poor coverage of ancient history prior to 2500 bc. Post that is pretty accurate but I would say in somewhat restricted coverage of world. Also the charts are very busy on account of too many wavy lines. Human history did not begin in 4400 BC. get some other books if you want a good timeline chart. I am going to return this one

I just received this amazing book and it was well worth the wait. My original copy was used for my children when they were very small; today my grandson will be six and it is his birthday gift. There is no future without understanding the past and his legacy may be the Internet but I believe this book will be the basis of his future. Happy birthday Wade.

Had this book years ago, but lent it to someone, never came back. I'm so glad to get this new one. I really love the way this book shows what was happening worldwide at a particular time. Puts things in perspective. Makes history much more interesting when you don't have to do the math yourself.

This is the third time I've purchased an addition of this book. I use it when I teach a history course. My students love it. It also helps them see history as a whole, not just individual incidents unrelated to other things.

My children are completely taken with this book!
