# Paddle Your Own Canoe: One Man's Fundamentals For Delicious Living

## **Synopsis**

When it comes to growing a robust mustache, masticating red meat, building a chair, or wooing a woman, who better to educate you than the always charming, always manly Nick Offerman, best known as Parks and Recreation's Ron Swanson? Combining his trademark comic voice and very real expertise in carpentry, *Paddle Your Own Canoe* features tales from Offerman's childhood (born, literally, in the middle of an Illinois cornfield) to his theater days in Chicago to the, frankly, magnificent seduction of his wife, Megan Mullally. Offerman also shares his hard-bitten battle strategies in the arenas of manliness, love, styles, and religion, and invaluable advice on getting the utmost pleasure out of woodworking, assorted meats, outdoor recreations, and other palatable entrees.

## **Book Information**

Paperback: 352 pages

## **Customer Reviews**

Here the situation.If you like Ron Swanson. Don't get this book. This is not "Parks and Rec: The novel". This is an autobiography. I think 90% of the complaints are from people who expected this book to be an extension of Ron Swanson character - talking about eating lots of meat and complaining about Tammy 2. Instead, they got a book about an actors rather ideal life in middle America, his entry into the theater world and his struggle to finding acting jobs in LA.The books is however, HILARIOUS. Nick talks about his life in a very open and honest manner, going over both mistakes and victories. He is middle of the line political person, but also has strong views and yes, a pretty libertarian stance. He pulls no punches making fun of folks who are dependant on technology - since ALOT of folks are depenant, I'm sure many of the complaints here are from folks who were

likely irked by his constant ribbing of folks who can't live with Instagram, a GPS and would die with two hours if left alone in the wilderness. If you're an open-minded person (which most people are not) then this is a VERY helpful book. He has a lot of earthy advice on everything from drug use, to dating, to sex, to eating right, work ethic, etc. **NICK OFFERMAN IS NOT RON SWANSON.** Nor does he claim to be. Ron Swanson is an over-the-top version of Nick Offerman, written by writers who knew Nick. Nick Offerman does enjoy fishing, immensely. He doesn't like hunting, though he understands many do. Nick Offerman eats salad and veggies, but won't turn away a nice steak. Nick Offerman likes to hit the bong and watch Twin Peaks, as opposed to Ron Swanson who would mostly be found carving 1/10th 18th Century Spanish Gallon from a fallen tree near his cabin with nothing but a pen knife.

As soon as I saw this book was available I purchased it for my Kindle and read it that same evening. As a long time fan of Parks and Rec as well as Offerman's other work, I was really excited. I know that Ron Swanson is a fictional character, but one of the things that sets the character apart is how little Offerman has to "act" to be believed. As a trip to the Offerman Woodshop website will show you, he truly is passionate about some of the same things that Ron Swanson espouses. He also has a killer 'stache. That's sadly where the similarities end. (SPOILER ALERT: I reflect on things I didn't like in the text, with minor specifics. Proceed with caution if you want to be surprised by the tale of his life) I didn't expect a book "by Ron Swanson" but the only amusing parts of this work are written in the spirit of the character. I laughed out loud several times only to realize it was Mr. Offerman "taking his character's voice" briefly. He then promptly rebukes the sentiment that was amusing in the first place. Offerman takes great pains to point out that he is not the source for Ron Swanson, and is even somewhat self referential about why anyone would find his real story compelling. He's right there, as I struggled through several chapters that only served the purpose of recounting his experiences with high school girls. These stories are neither unique nor meaningful, in fact they're mostly boring. Awkward teenage romance has been mined pretty well, Offerman strikes nothing new here. Perhaps the greatest disappointment was the sheer amount of time spent on opinions. I'm inclined to accept Mr. Offerman's opinion on things he likely knows a great deal about, like growing a mustache or using a hand plane.
