But when Wenjie Ye pressed the launch key, she didn't know the destiny of human beings had been completely changed. The first signal from the earth, with the sun as its center, dashed forward to the deeper side of the universe. Four light years away, the Three-Body civilization is in big trouble. Just like the earth, they also revolve around the sun, but quite randomly. After hundreds of destruction and resurrection, they were forced to break away from the home planet. Food for thought:How could the despair and hatred be so deep in a person that turn the person against his own race? What is the cause of that?What is right and wrong when the survival of your race depends on it? What is moral and justice from a universal sense?Beside the hard-core science, the plot, and the imagination, a good SF fiction should provoke our thinking on humanity, existence, laws of the nature, and our destiny in the cosmos. The Three-Body trilogy does a good job on that.Punch lines:Monitor 1379: [Do not reply!](#) Do not reply![Do not reply!](#) •Three-Body race: [Do not reply!](#)

our sole wish to destroy you. Your opinion does not matterâ •ETO (Earth Three-Body Organization):
â œEliminate human regimes. Earth belongs to Three-Bodyâ •Ye Wenjie: â œThis is the end of
mankindâ •Synopsis:First volume of the Three-Body trilogy can be read as a mystery fiction. It uses
an internet role playing game as a faÃfÂ§ade to lead the readers into the Three-Body world. The
plot of the story unfolds as the game advances. The book might be a little slow at time but hang on,
the best is to come. As the secret unfolded, the world is at war (or will be) with an alien race. How
did that come about?For the military, science community, the elite and the riches who have insight
to this secret, their reactions are: fight, flee, or surrender. These reactions turn into different
movements. They will twist and turn and move the story along throughout the three books. The last
two groups will be treated as anti-human and punished by law.At the end, the Three-Body
supporters, Earth Three-Body Organization (ETO), are crushed by the military. Their leader is
interrogated and revealed some frightening news.
