The American Tradition In Literature, 12th Edition

Synopsis

Widely known as the anthology that best unites tradition with innovation, The American Tradition in Literature is proud to enter its fifth decade of leadership among textbook anthologies of American literature. Each volume continues to offer a flexible organization, with literary merit as the guiding principle of selection. The new photos and illustrations illuminate the texts and literary/historical timelines help students put works in context.

Customer Reviews

This book was an excellent substitution for the 12th edition of the same title. The class I was in "required" 12th edition and I bought this one by mistake--no mistake! I saved money and it didn't effect my ability to complete the class. The subtle differences between the two editions isn't worth the price difference.

My son needed this for a class he is taking. I have spoken to him since he received the book and he just loves it. He said that it have a lot of information in it and I guess that is a good thing for him. I don't think he was expecting it to be as good as it is. Anyone who needs this book, should get it.

i forgot to write this sooner but these pictures are from the day i received it. other than the fact that the side of the pages were coiled up.. the book is perfect & the quality is good. i would recommend

this company.

I used this book for two semesters and am glad I decided to purchase this textbook. There are great exerts and I rarely ever had to use another source when I had papers to write. Book shipped quickly and for a used textbook it was in perfect condition.

I actually found myself reading this book outside of class times and reading things that were never assigned. Conveniently sized too, since its a smaller paperback.

I got the book I needed in a very timely manner. It was a little more battered and bruised than I expected for the price but it functioned as designed.

The description was spot on. Satisfied with purchase. I purchased this item for my class requirement and is very useful.

Well, it's only a book that we needed, but again, with ... easiest purchase ever
