## Synopsis

A member of the Millennial Generation, Brian is highly educated and wants to change the world, but when he finds himself in his first leadership role, he realizes he is short on experience. The head of his division is retiring and his manager is disinterested in training or development—so who can he rely on for direction? Denis McLaughlin invites you to join Brian on his leadership journey as an unexpected mentor guides him on the paths of successful leaders from the past.

Denis delivers a well written book with a practical step by step guide. Just like the author, the book adds value to those who read and practice it - going from small wins to large accomplishments. I found the writing to be simple and told in a memorable story-like fashion. This is highly recommended to any organization, any person, any team desiring accomplishment and achieving success through the steps of leadership. The book's practicality is relevant in today's public school education system, religious organizations, and corporate board rooms.
