## Customer Reviews

I really thought that I was going to go with The Belly Book, but after going to Barnes and Noble to look at them in person I was quite shocked that this ended up being my favorite, especially when I don't like the whole Sophie trend. But I adore that this has places for input from mother and father, and that I can add images from our dating and wedding. It truly makes it a treasured keepsake that I can't wait to give my child when they're old enough. I also enjoy the prompts not being too cheesy, but still having enough room to free write.

This book is adorable and very detailed. Some of the sections require some thought, but I'm sure that our children will love reading through it one day. My husband and I have had a lot of fun filling it out. There are places to record personal things about each of you, how you met, hopes for your baby, and lots of places for pictures. It is a really fun and very cool item to pass onto our children someday.

I absolutely love my journal. It focuses so much on the family and the love between the couple. It asks for letters to the baby, pictures, hopes, dreams you name it! I get to write out as much as I want and give lots of details I know our child will love reading. This is the best one and I've looked at them all.

I like what this book has to offer. It asks good questions to answer and provides areas for photos. It's built sturdy and has very cute pages inside.

This journal not only looks beautiful on the outside, but the inside is gorgeous. So many pages for all the different moment. It's wonderful.

This was my favorite of the many pregnancy journals I looked at. The questions are fun and light-hearted, and the overall design is adorable.

I'm in love with this book. It's perfect. Great quality and awesome content. S2

The best one i have seen in the marketplace. Informational and fun
