Customer Reviews

This is the story of a woman who spent about seven months in Auschwitz and survived to tell the tale. She wrote this book shortly after her ordeal, while her horrific experience was still fresh in her mind. It was definitely a mind numbing, life changing experience, as it saw the loss of her entire family, her parents, her children, and her husband. It should be noted that none of them, including Olga, were Jews. Olga Lengyel lived an upper-middle class existence in Transylvania, in the capital city of Cluj. Her husband, Dr. Miklos Lengyel, was a Berlin trained medical doctor and the director of a private hospital that he had built shortly before the onset of World War II. Olga had also studied medicine and was qualified to be a surgical assistant. She and her husband had two young sons. They were all surviving the war as best they could, with Germans an occupying force. They even had a German soldier billeted with them for a time. Olga had begun to hear disturbing things about what the Germans were doing in occupied territories, but had discounted it. She felt that Germany, a country that had contributed so much culturally to the world, could not be culpable of some of the atrocities of which she was hearing. She felt the stories that she was hearing were too fantastical to

be believable. Then her husband came under the cross-hairs of the Nazis, accused of having his hospital boycott pharmaceuticals made by the German Bayer Company. This was the beginning of the end for the Lengyel family. Shortly thereafter in May of 1944, he was ordered to be deported to Germany. When Olga heard this, she insisted on accompanying her husband, as she thought that he would be put to work in a German hospital.
