## Customer Reviews

This is an ideal set of flashcards for this exam. It is especially beneficial if you find yourself reviewing it with colleagues or classmates. They are also great for the second test around. However, if you get these the first time you won't have worry about retaking the test.

Using these flashcards will definitely build your confidence that you know the material on the test.

disappointed flashcards are not actual exam like questions (multiple choice) rather open ended topics which is presented eerily similar to PMHNP secrets study guide. It seems like one in the same and definitely NOT what I expected/hoped for. I would NOT recommend purchasing both as I had because would be waste of money

I am enjoying the info and will post back if I pass my exam in November, 2016. I like that the cards are broken down by area that we are going to be tested on. I can then focus on my weak areas hopefully.

I have extreme test anxiety and have already taken my certification exam 3 times without passing. I purchased the FPMHNP Exam Flashcard Study System and received the cards today. I have read through them and I can tell that they will be invaluable for my next test. I am very impressed with how concise and to the point the flashcards are, and I have no doubt that they will ensure that I pass

the next exam. Thank you for creating them. Peggy Wolstein, PMHNP

The flashcards are excellent for memorization. My friend utilized these cards and passed her exam...she thought they were very helpful. I hope for the same!!! P.S. I used the Psychiatric Nurse flashcards and passed that exam without a problem.

They have been great resources so far enabling me to be successful in all my courses. . These products did it for me, they will do it for you. All contents are relevant. Thanks to Mometrix, I am board certified in Psychiatry and will be a Psychiatric Nurse Practitioner soon.

This is my first review after buying many things from . I received these cards in the mail yesterday, so I can't really speak to how good they are at preparing me for the exam. However, they showed up in 8 x 11 sheets with perforations to cut them out yourself. There are something like 200 hundred sheets to separate. It is on very cheap cardstock. I spent \$75.00 on these. I believe that is extremely pricey considering the quality. No box either. I am really disappointed.
