I was very pleased with this book. It was very informative with clear pictures and understandable explanations of each step within a fard prayer. He also offers explanations for the wudhu, and he provides a good transliteration of the Arabic spoken during the prayers. I highly recommend this book for anyone who wants to learn how to pray as a Muslim.

This is a real nice little book. It clearly explains the meaning behind the prayer positions as well as giving the words in Arabic, arabic transliteration and in english.

I was searching for a clear step-by-step guide and this book is just that. What I especially like is the book teaches you in stages so you don't have to learn everything all at once and can begin practicing right away.

Being new to Islam I found this book to be very helpful! It has a simple and easy to understand layout with Arabic and English translations and photos to help you understand the body positions of the prayer. I think this is a great book for new English speaking Muslims. A must read!

I've recommended this book greatly and have shared it with a few new Muslims. It is extremely resourceful for new Muslims in particular in aiding them to learn the steps of prayer, one point at a time and is extremely detailed with illustrations on the various positions of the prayer. The book is short but extremely comprehensive and also adds on along with it Arabic transliterations and translations for those having difficulty with the language. The book is also very affordable and is worth every penny invested.

This book is very well written in regards to how you should pray in Islam. Very easy to follow, very easy to understand. I am really enjoying it. It has opened my eyes to understanding the true Muslim faith, not the radical stuff that you hear about on the news that gives true Muslims a bad name.
