## Customer Reviews

I currently use Kaplan for practicing nclex style questions but I wasn't happy with the content review. I came across Regina Callion's youtube video's and found this book. I cannot tell you how much this has been helping me to review content material. There are no hours spent reading pages and pages, chapter after chapter trying to pick out the need to know information. With this book I am reviewing need to know content only, right there in black and white! It is straight to the point and extremely easy to read and comprehend. I have noticed a few drugs listed as trade name but that is an easy fix for me because I have just written in the generic name next to the trade name. I am already feeling more confident about passing Nclex. There is an order to my studying now and I had felt chaos in trying to decide what content I needed to look up.

Love this book! It is straight to the point and gives you exactly what you need to review before the big day. I read this book three weeks prior to my exam and then reviewed the info, and read the book again the night before my test. I just took the NCLEX this week and passed with 75? Plus the main topics on my test I knew because of this book. Totally worth it and good luck to everyone!

This book is AWESOME!! I ordered in April and read it from cover to cover. Then I began to study the content that I was weak in. May 12, 2016. I took the NCLEX and passed my first time!! The wealth of knowledge that is in book well put and easy to understand. This is a book you can keep referring to even when you pass your boards and begin to work!! Thank you so MUCH!!

The book is small yet packed with a lot of information. I am a RN student that's in the 3rd semester of a 4 Semester ADN program. I used it to help study for my final exam. The Pharmacology section really helped me to pass my Exam. I would recommend this book for nursing Students. This is an honest review. I purchased the book with my own money.

I am so proud to announce that I have officially passed the NCLEX RN exam on the 5th attempt using Remar RN Online Academy and Remar Quick Facts. Remar guaranteed that I will pass. I believed in her and she delivered the best studying content and strategies that I have ever seen. I was able to remember what I had studied and apply it to practice test questions and the actual exam. I finished 75 questions in less than 90 minutes. Thank you Remar for helping me to make

one of my dreams come true! I am now Jennifer, RN!

Thanks Regina and Remar Review. This book is straight to the point and what you need to know. Only studied for 3 weeks along with UWorld question bank. 75 questions with only 5-10 SATA. I thought test was easy but thoughts of are they tricking me, it can't be this easy.

I read your quick facts review and watched your videos on you tube. I passed my NCLEX yesterday with 88 questions! Thank You Regina! Your book is easy to follow and I went in with confidence. The NCLEX felt like a breeze!

It worked for me! Bought most of the other review materials and all they did was confuse and frustrate me. You will not remember all of the content. ReMar review simplifies the facts needed to pass the NCLEX!
