ISBN-13: 978-0071446891

Product Dimensions: 8.1 x 0.6 x 10.8 inches

Shipping Weight: 1.8 pounds

Average Customer Review: 3.9 out of 5 stars [See all reviews](#) (37 customer reviews)

Best Sellers Rank: #230,784 in Books (See Top 100 in Books) #71 in [Books > Education & Teaching > Test Preparation > College & High School > GED](#) #1076 in [Books > Education & Teaching > Studying & Workbooks > Study Guides](#) #1975 in [Books > Textbooks > Test Prep & Study Guides](#)

## Customer Reviews

I ordered this book before it was published, because we administer the TABE D to our incarcerated GED students. I have used it for about three weeks now and it is a good tool to help practice for taking the TABE, but I keep finding more and more errors, particularly in the answer keys. Thus I would caution other potential buyers of this book that it is very useful, but don't rely on the answers.

I bought this book for a friend but had to go thru most of her work McGraw-Hill's TabE Level A: Test of Adult Basic Education: The First Step to Lifelong Success [MCGRAW-HILLS TABE LEVEL A TEST] by hand. The answer key is so fraught with errors as to make use of this book useless unless the user has someone to manually check their answers. I'd have to give this book a vote of little or

no confidence until the problem with the answer section can be corrected. After that is done then this will be a useful tool - until then... not so much.

This workbook is a good review choice for English and math basics. Purchased to assess areas forgotten, it accomplished my purpose for purchasing it. It has tests to start you off with and then further work for areas you are looking to strengthen. Did not find considerable errors in answer key. The reading and comprehension areas of the book also work through smoothly. The McGraw Hill publishers would benefit in publishing further editions of this workbook.

The adult literacy center where I work administers TABE as a pre-GED assessment tool. I borrowed this book from the library. Obviously, it's a good resource. My only criticism is the number of mistakes I find as I review problems. See p. 115 ex. E & p. 105 #5. (answer in key cannot be correct). Some typos too see p.110 #4. option a. & p. 115. ex. F in the explanation of problem I started working on practice problems before my students arrived. Surprising amount of oversights made by editor & proof reader & two authors. I'm sure there will be more as I continue to use the text.

I purchased this book to assist me with the TABE so that I could qualify for a promotion in the Army from Staff Sergeant to Warrant Officer. It has been years since I've used math on the more basic levels, so I picked this up to show me what the exam expects me to know and to provide a refresher on the material itself. Additionally, I've always had trouble with math so this isn't exactly easy for me in the first place. The practice exam was decent enough in that it showed me where I need to focus my efforts, but was flawed with typos and problems that made no sense at all (I found three of the four answers were correct for the problem given when I looked it up elsewhere). The actual sections review the material are also often flawed to the point of becoming very confusing and counter-productive. As a result of how frustrating the workbook has shown itself to be, I would NOT recommend this to anyone else. At least, not this specific edition provided they fix it in the next one.

I have found at least 8 errors in this book. Several typos in the Reading portion, at least one misspelled word in the Language portion and 3 incorrect answers in the Math portion. Anyone who is trying to learn from this may have problems. Others, like me, may just be annoyed that they have to take a test and use a sloppy book as a study guide.

TABE Level D has many, many, errors in answer keys. How can you learn from incorrect answers? If this company is aware of the problem, why don't they correct it or put the correct answers online..Listen to the negative reviews as they speak the truth. Don't buy this book, it will only confuse you.

As an instructor for adult education, I purchased this with the idea of using it in my classes to help raise their TABE scores. It is a good book for an individual to use but not so much for a class. I find that I am having to adapt the book to use it. The pre-tests and post tests are great!
