Mother-Daughter Wisdom: Understanding The Crucial Link Between Mothers, Daughters, And Health

Synopsis

With such groundbreaking bestsellers as *Women's Bodies*, *Women's Wisdom* and *The Wisdom of Menopause*, Dr. Christiane Northrup is one of today's most trusted and visionary medical experts. Now she presents her most profound and revolutionary approach to women's health. . . . The mother-daughter relationship sets the stage for our state of health and well-being for our entire lives. Because our mothers are our first and most powerful female role models, our most deeply ingrained beliefs about ourselves as women come from them. And our behavior in relationships—with food, with our children, with our mates, and with ourselves—is a reflection of those beliefs. Once we understand our mother-daughter bonds, we can rebuild our own health, whatever our age, and create a lasting positive legacy for the next generation. *Mother-Daughter Wisdom* introduces an entirely new map of female development, exploring the five facets of feminine power, which range from the basics of physical self-care to the discovery of passion and purpose in life. This blueprint allows any woman—whether or not she has children—to repair the gaps in her own upbringing and create a better adult relationship with her mother. If she has her own daughter, it will help her be the mother she has always wanted to be. Drawing on patient case histories and personal experiences, Dr. Northrup also presents findings at the cutting edge of medicine and psychology. Discover:

- How to lay the nutritional foundation to prevent eating disorders and adult diseases
- The truth about the immunization controversy—and the true meaning of immunity
- How we can change our genetic health legacy
- Why financial literacy is essential to women's health
- How to foster healthy sexuality and future love maps in our daughters
- How to balance independence with caring, and individual growth with family ties

Written with warmth, enthusiasm, and rare intelligence, *Mother-Daughter Wisdom* is an indispensable book destined to change lives and become essential reading for all women. From the Hardcover edition.

Customer Reviews

First off, this book makes a great gift to anyone you know who has a daughter regardless of age. It makes a great baby shower gift, also. I just want to start by saying, I first saw this book and I skimmed through it, but didn't buy it. I was very skeptical. I am a well read individual and I was thinking: "I don't need another lame self help book by some would be expert that sits on my shelf that I never read. My daughter's five: there is a bunch of birth, pregnancy stuff in the book. I am past those stages and don't need a book that covers stuff I don't need." However, I ended up going back and getting the book. I am SO glad I did. Now I am here to say: this book is amazing. Reading the book made me want to read all of her books. I took so many notes and have already started using some of what she wrote. For those of you who consider yourself Moms who care about being good Moms, this book is a great compass for how to raise your daughters well. It doesn't matter whether your child is young, not born yet, a teenager, or full grown or if you are a Grandmother; you will be glad you read this book. I am so glad Christine Northrup wrote this book: she has fabulous ideas and covers just about every topic imaginable. She has a great resource section, and incredible reference section (her book is well researched) and honestly, there are not any books like this one on the market. I love how she weaves spiritual ideas with psychological ideas and how she covers all possible topics on how to raise your daughter with a well rounded well being.
