1001 Questions To Ask Before You Get Married

Synopsis

The relationship expert from the Ladies' Home Journal, the Wall Street Journal, and Lifetime Television shows how to prevent marriage problems before they start. There's nothing wrong with starter jobs and starter homes, but starter marriages? Relationship expert Monica Mendez Leahy is on a mission to help readers make their marriage last. Her 1,001 Questions to Ask Before You Get Married offers a reality check for couples on the marriage path, helping them realize how much they have yet to discover about their partner's nature, thought processes, lifestyle, and marital expectations. Engaged couples learn to discuss issues deeper than "chicken or fish" and to broach subjects that are often ignored before the nuptials yet essential for the foundation of an intimate, long-lasting relationship. Posed in a variety of fun formats, including multiple choice, fill-in-the-blank, and hypotheticals, these questions include topics such as: "Does your partner feel that you're too attached to your parents?" "Is there such a thing as innocent flirting?" "Is it OK to cheat on your taxes?" And more

Customer Reviews

This book is FANTASTIC and I buy a copy for any friend who is thinking about getting engaged. Some folks complained this book has logical basic questions you should know about your spouse before agreeing to walk down the aisle - but that's exactly the point! I really do think far too many people getting married nowadays assume once they know the very basics (Do you want kids? Do you want to be rich? Will we share a bank account?) and they love the person, they're set! I think the "logical" things aren't all that common anymore and there is nothing to hurt in prepping yourself

and your future spouse as much as possible beforehand - you WANT to stay together right? So take some time and go through this. My fiancÃ© and I sat around, going through the questions together, a few days while lounging about after work - it's not hard and can even be fun. We knew far more than it seems many couples knew going into the book, but still found good topics to cover! And we've been happily married for six years. This book walks couples through a lot of the LOGICAL (sorry, no, they're not all fun and whimsy - but fun and whimsy doesn't build a marriage, those are the perks!), solid questions you should cover before committing your life to someone. Beyond having kids, it walks through what you might each do in a situation during their upbringing. On finances, you go from basics about banking to taxes to how to handle situations regarding layoffs and other woes. From defining each version of "cheating" (this really does vary person to person, oddly enough, as so many couples forget about lines coworkers may try to cross or emotional cheating), etc.
