Language: English

ISBN-10: 0972967370

ISBN-13: 978-0972967372

Product Dimensions: 3 x 2.8 x 4 inches

Shipping Weight: 1.4 pounds

Average Customer Review: 3.6 out of 5 stars [See all reviews](#) (61 customer reviews)

Best Sellers Rank: #831,084 in Books (See Top 100 in Books) #132 in [Books > Business & Money > Management & Leadership > Project Management > PMP Exam](#) #569 in [Books > Education & Teaching > Studying & Workbooks > Flash Cards](#) #856 in [Books > Business & Money > Management & Leadership > Project Management > Business](#)

## Customer Reviews

Nothing beats flash cards for memorization, and a lot of memorization is required for the PMP exam. These cards also have the knowledge areas printed on them, which makes it easier to sort them for focused study on a particular area. Note that some of the process cards list "key" inputs, tools, and outputs. "Key" means they're doing you a favor and helping you focus on the stuff you are most likely to be tested on. I was annoyed by this at first, but came to see the value of these focused lists for study purposes.

This particular brand of cards contains extensive errors. If you memorize the errors it will presumably adversely affect your test score. In specific you must memorize process steps to master the PMBOK. Process steps have "key inputs", "key outputs" and "key tools" In this deck transcription errors have limited many of the entries on these cards to i item in the category instead of the set identified in the PMBOK. Thus, where the PMBOK may say inputs are the project management plan, the project charter and enterprise process assets for a step, these cards would

only list one, say the project management plan, leaving 2 others omitted. Buy these PMP flashcards instead. I bought them and they lack the defect identified above. PMP Exam Prep Flash Cards

These cards have different information than what is in the book and some information is missing. My biggest issue, however, is that they have the answers on both sides! You can't just read a definition and try to guess the word/concept!

These are really good flash cards and there are enough of them that you can study them with the appropriate amount of detail. Like all flash cards, set aside the ones that you don't need and focus on the ones you have trouble with. I used "The PMP Exam: How to Pass on Your First Try, Fourth Edition" with these flash cards, along with the other Velociteach study aid and had no surprises when I took the PMP exam.

I'm studying for the PMP and comparing these cards to the book. They could not be worse. They are completely useless and would make you fail if you used them. They have a ton of areas marked as having No Input but in fact when you look at the PMP 4th addition there could be as many as 10 inputs. Same hold true for tools and outputs. Don't buy these...total waste of money and are completely wrong.

These cards are not worth studying with because they do not contain half of the inputs, tools, and techniques that are on the exam. In addition, the quick reference guide is the same way. The cards do not match it. The Quick Reference guide comes closer to the book but is still short of what is on the exam or practice exams within the velociteach website. It's no wonder most people fail a few times before the pass, or at all for that matter.

I purchased these cards to assist with studying for the PMP. However the cards are inaccurate and do not convey the correct information according to the PMI standards. On many of the cards, the Inputs, Tools & Techniques and Outputs were not what PMI conveys them in the PMBOK. Many of the Inputs were missing. For example; Scope Management, 5.3 Create WBS, these cards had no inputs! There are actually 3. If this were to be the case, there should be an explanation of the differences. There is nothing in the box as reference, just the cards. I'm glad I caught this in the first 10 minutes. This was the case for many of the flashcards. What an utter disappointment!

Product is wonderful, am currently studying for the PMP and these cards are quickly becoming a must have tool in our study group.
