It might seem strange to have to take a test for cdl-related endorsements, but there are a lot of rules and regulations you will need to know in order to get those endorsements and move on to do your job. You have to prove yourself on the test before you can do that so you will need to know the information well. This study guide can help you with that part because it has all of the details you need to know in order to do well on the test. The guide has everything lined up and organized and ready for you to jump right in. It doesn't include a bunch of things you don't need to know and it doesn't add a whole bunch of other extras either. The guide is just what you need for your study sessions.

When I was getting ready to take this test, I have to admit, I was overwhelmed. I didn't know what to expect from the test so even though I wanted to study hard, I didn't know where to start. I was afraid I would waste hours studying the wrong things and then still not do well on the test. It's happened to me before and I didn't want it to happen again. So, this time, I looked for help by way of a study guide and I found this great, cheap guide online. Though the guide didn't cost much, it was worth a ton. It had all of the material I needed to cover in it and I was certain if I learned the guide, I would do well on the test. Plus, I felt less overwhelmed by it all. Every detail I needed to learn was organized into this one guide. I didn't have to flip around in my books or notes or look online for more information. All I needed was the guide. I felt like I knew what I had to do in order to do well on the exam and that's just the boost I needed to get me started on the

right study path. I'm so glad I found this study guide. It gave me confidence that I knew what items to study so I could have a good turn out on the exam. Studying still took time, but it was much easier than it could have been!

Taking a test is intimidating since you don't know what all will be on the test. But if you want to know if you are studying the right things, you should get these practice tests and use them to help you get ready for the test. These tests are very similar to what you will see on the real test. So you should study hard and then take the test and see if you are on the right track. If there are any questions that trip you up, you can easily fix where you went wrong before the big test. You'll gain the confidence you need in order to take the test and know you will do well.

Just the first 10 min of me reading this I felt comfortable. It is easy to read and understand. It reads like a regular person is talking to you nothing like state dot manual Very pleased with my purchase, you guys rock!!!

It seems to have a lot of helpful information so far. I don't have much feedback to give so far. I am new at studying for the CDL exam, so I don't know what to expect. After looking at the book, I have learned that there is so much that I don't know. This book does have a lot more information than websites that I have visited to help.

I purchased this for my boyfriend while he was attempting to study for his CDL exam using the books the DMV gave him. He failed a few times and stated those books were too lengthy and had too many words to actually comprehend. Since reviewing with this book, he finds the reading "lighter" and was able to pass on his first try since using this book. He found the practice questions to be like the ones on the actual exam which also helped.

I FIRST WANTED THANK YOU FOR PRODUCING A GREAT BOOK, AS THIS HAS HELP PREPARE ME FOR MY EXAM , I STUDIED BOOK FROM BACK TO FRONT NUMERIOUS TIMES UNTIL UNDERSTOOD THE QUESTIONS AND PAST THE EXAMS, I WOULD RECOMMEND THIS BOOK TO ANYONE, I FEEL THAT IT IS A GREAT TOOL AND WAS AN EXCELLENT EXPERIENCE IN BEING ABLE TO PURCHASE BOOKS AT A LOW PRICE.

This was a great buy. This book provides detailed information and simplifies my study regiments. I

am able to understand the information provided because of its structure, allowing me to finish what I start. I give this book 5 stars..It is way better than other materials I purchased in the past...Thumbs up!!
