Customer Reviews

I have this text book for school. I had to buy it from the school because the ISBN # for it did not match the schools listing of the #. So.... I spent more to get the dumb book, so when I look to get the Kindle version of the book they want more then the price of the hard copy book, and because I didn't buy it from I cannot buy it at the match book price. Guess I will not be buying the kindle version at all! I refuse to pay full price or rent at an astronomical price I book I already have. I'll be placing this same review in the Med truck text book that goes with this. I feel like I got screwed by

the text book company and by .

Keep up the great work excellent books. I would like to request that you allow the try feature. You have done so in the past with other editions. Thank you for your time.
