## Customer Reviews

I bought this book a few years ago and found it extremely informative and helpful. It was the first time that I had heard about soy was not good for me. While applying many of the "Winning Formulas" I was still struggling with my health. I recently had a physical for a new job and found that my blood pressure was a "little high", but I passed the physical. Then, a few months later, I needed another physical to get a certification for this job and tested my blood pressure at home, prior to going for the physical. It was REALLY high for me. For days I tried everything that I could think of and researched like crazy and couldn't change it. I was very discouraged about it and finally made an appointment with a doctor and was prepared to give up and go on blood pressure meds. My grandmother and mother both suffered from it and now I was. I love to watch The Biggest Loser and am amazed and inspired at how the contestants can go off of many of their meds and reverse serious health issues with diet and exercise, so I know it is possible. I wasn't at peace with going the medical route at all, because I really believe I CAN change it, but felt that I had no choice. I awoke early one morning feeling very troubled and emailed Paula. I had decided it was time to get help. She responded immediately and said that she could help me and that she guaranteed that she could. I (honestly) filled out the questionnaire she sent and had the blood labs done. When the results came I was surprised to find that I was deficient in most everything that I had been taking. I also ordered "My Ultimate Personal Plan" from Paula. I can't tell you how much PEACE there is when you KNOW exactly what your body is lacking and Paula came up with a supplement plan just for me.
