Customer Reviews

This book is both practical and comforting for husbands AND wives. Here's what each of you can do to help save your marriage (even if you're the only one who wants to). Full of wisdom, information and suggested courses of action to counteract the potentially devastating effects of menopause, midlife crisis and empty nest syndrome. Written by a non-medical person who speaks from his own heart and experience, this is a gem of a book. Read it NOW, even if no one is menopausal yet!

Written by a man for men. His was an extreme case, and he seemed to blame hormones for all his problems.

This book is easy to read, and met my expectations. (This is an annoying review to have to write -- sorry.)
