Confession: I bought this for a Christmas gift, but started thumbing through the pages and fell in love with the concept. I've started using it myself, and will have to purchase a second copy for the intended recipient! :) But I really do love this little book. I think many of us would agree that the ordinary details of today are going to end up being the sweet and special memories of tomorrow - if only we could remember them! And that's where this little gem comes in handy. I bought a similar book when my toddler was first born, but that book did not have any questions/prompts, just blank pages. I kept up with it at first, but eventually got to a point where I didn't know what to write. It can be hard to think of something original to write every single day. But with this book, the simple questions get me writing down memories I never would've thought to record, but know that one day I will love reading! Sample questions include, "One smell I associate with my child right now is _____," "My child's newest friend is _____" and "What is getting easier these days?" Highly recommend, although if I could give 4.999 stars instead of 5, I probably would, only because I feel like the book would be even better if it was a little bigger. If you have more than one child and want to answer the questions for both of them, you will have to write pretty small.

I'm excited to start journaling with this book. It seems like it will be a great memory keeper.

This is such an adorable little book. I knew this was basically a one line a day type of journal with topics for each day. I may not use the topic every day if there are other things I want to document but it's great to have on days when I have brain freeze. The topics are thought provoking and I'm excited for my kids to read it when they get older. I know a lot of people had a problem with the large sticker on the back but I used some Un-Du and it came right off in less than 5 minutes. Love this book.

The book is nice. There is a large sticker on the back, which I tried to peel off (as I knew it would not look nice after 5 years of wear) which took part of the back cover off with it. If you are going to put a sticker on a book, please make it easy to remove. Like on the back of my "One Line a Day" book by Chronicle.

Great concept. I ordered two of the Q & A a day for teens for my daughters (12 & 14 years old) and was hoping we could all write in our own Q & A books together. However, the questions in this book are geared toward the years when your kids are much younger. I suppose I could adapt the questions to fit the teen years, but it just seems so...young. I will gift it to someone with a young child and look for a more suitable book for myself. Otherwise, great, hardcover book and lovely cover. Small in size, but nicely bound.

Ok. I would just like to say that I talk about this book constantly. I have always had the desire to do a traditional journal but never can remember to write in it on a regular basis and on top of that I never really know what to write!! This book is set up for 5 years. You can start at any time and each day has a question to answer which takes the guesswork out of what to write. It has a couple of lines for an answer, so you don't feel like you have to write an essay for the day. It has room for one answer for each year for five years on each page. I have told everyone about this book and how great it is and I have even mentioned it on my website (<http://life-is-great-at-thirtyeight.siterubix.com>) and have placed a direct link to it from there. It really is worth buying and trying out and it is not expensive at all. You won't regret this purchase!!

A note on the back cover sticker: be aware that it probably shouldn't be taken off. I just spent 45

minutes removing it with a razor blade and will need Goo Gone to remove sticky residue. The book cover illustration is beautiful underneath the sticker. It's too bad that there is this flaw. My husband got the original Q&A a Day 5-year journal and the back cover sticker came off easily. I just got this journal and I'm really excited to start filling it out over the next 5 years. We have two young daughters who will be 7 and 5 once I'm done with this journal.

This book is pretty small in size and thus is not as intimidating as I thought it might be. It seems like it is good quality. It is flexible and the pages are nice. The cover is pretty. The questions are interesting and it seems like a good variety for a loop journal like this.
